Right- and left-handed

PACKAGING

Eco-friendly cardboard

SKU

GITANO-001

WHY GITANO®

Anyone who plays guitar regularly knows the issue: the traditional footstool forces an asymmetric posture that leads to tension and back problems over time. The Gitano® solves the problem elegantly. It attaches to the guitar body in seconds with three suction cups and lifts the instrument to the ideal playing height — without you having to keep one leg permanently raised.

ERGONOMICS

Symmetrical seating posture relieves your spine and lets you play relaxed for hours.

MOBILITY

Folds down to 13 × 7 cm — fits in any guitar pocket. At only 350 g, you'll barely notice it.

TRUST

Mark-free suction cups and residue-free adhesive film protect finish and wood. Safe even on fine concert instruments.

WHO GITANO® IS FOR

Classical and concert guitarists

Ergonomic alternative to the footstool — for concert, rehearsal and lessons.

Music schools & conservatories

Children and teens benefit early from a spine-friendly playing posture.

Guitar teachers

Recommended for all students — with a dedicated educator program at Musik Lenz.

Touring professionals

Small, light, mounts in a flash — ideal on the road and on stage.

RRP (INCL. VAT)

€ 44.00

Adhesive film for matte finishes included.
